## *Declaration of Style*

My commitment to YOU is that I will give you my ALL! My experience, my tips and my feedback to your questions on the Style Angel Forum. You - being confident in how you look is my biggest joy in life.

I am super excited to get started on your Style journey and before we start there is something we need to do together.

**Join me in saying this Declaration of Style OUT LOUD:**

- I LOVE all parts of my body UNCONDITIONALLY.
- I CLEAN out my wardrobe every 6 months so I know what I have.
- I will ONLY have in my wardrobe what I LOVE.
- When I shop, I look for what I NEED.
- When I try on clothes I KNOW they suit my body shape.
- When I try on clothes I LOVE the feel of the fabric.
- When I try on clothes I KNOW the colour suits me.
- I will ONLY buy clothes I LOVE 100% and trust my gut feel.
- I will NOT be talked into LOVING something by a shop assistant or best friend.
- I will keep the TAGS on purchases until I am 100% confident I LOVE them. (you work hard enough for your money!)
- I will ONLY splurge within my budget.

## *Celebrate Your Body*

Certainly an easier thing to say than to do. You are probably thinking on a regular if not daily basis; “oh look at my flabby arms”, “I have thunder thighs”, “my calves are huge”, “I have no boobs”, “my boobs are huge”, “my butt looks big”, “my stomach is huge”, “check out my muffin top”, “I could never wear that”.

After 14 years of being Style Angel and women from all walks of life sharing their stories, I have found that no matter what dress size and weight, ALL women have some part they are not happy with. And that is putting it lightly!

For me it is the cellulite on my bottom I literally have had since I was 10 as I bloomed super early. I used to (and STILL DO) check it out all the time in mirror instead of focussing on my tiny waist and size 8 healthy body. Years ago I gave them a cute name “Love bubbles” and really just became a master at directing the attention away from that area.

Once I knew my body shape was a Pear shape it became so obvious WHY I had cellulite on my bottom and WHY my MUM (An Inverted Triangle) had no bottom and no love bubbles at all! It made so much sense and I am excited for you to find out your body shape in just a few moments from now!

So, when it feels quite lonely in your head just know that the woman next to you is going through exactly the same. The [Style Revolution Facebook forum](#) has been created so you have a safe place to vent, ask any questions and get answers from me personally.

How YOU view yourself is often not how others view yourself. I will share so many tips with you on how you can accentuate your best assets and become the “Director” (Like Baz Luhrmann) of where you direct the attention on your body.

You will become a savvy dresser and you will be super smart about what works for you and what does not. No more need to ask the question “Does my Butt look big in this?”. I will show you ways on how your bottom, NO MATTER THE SIZE, will NOT get any attention.

*I promised you that I will show you how you can look slimmer and I will keep that promise!*

# style angel

giving you confidence in the way you look

*Life is too short and  
precious*

Let's make a promise to each other that life is way too short and precious and your physical and mind health is number 1.

These days, way too many women get struck with life-changing diseases, where the size of their arms, stomach and bottom is the least of their worries!

SO let's go for it together and break through the daily habits on being down on your body. Be kind to your body and just read the tips below on how YOU can be a confident dresser.

I really want to stress that it is a super important step in you looking amazing. Letting go of the negative thoughts will lift the veil that holds you down.

How would you feel if someone told you negative stuff to your face ALL day long. Quite frankly it would probably make the News as the biggest BULLY in town.

Let's SAY OUT LOUD again the first Declaration of Style as it is a biggie!

I promise you that taking this part seriously will give you freedom!

**“ I LOVE all parts of my body UNCONDITIONALLY”**

# style angel

giving you confidence in the way you look

Your body is all you have and it is a magnificent machine. Age, child birth, menopause and other factors will most probably change your shape, where you carry extra female curves and what feels comfortable. No need to fight it!

Embrace the changes and Gorgeous Woman.... you are in the perfect spot right now to learn lots of smart tips!

## *Your Body Shape*

Let the fun begin!! When you know your body shape it will give you clarity and you might say a few “Oh That is Why...”. But the most important thing is to then focus on what styles work for your shape.

You can take the ideal styles for your shape and compare them to what you currently have in your wardrobe.

How this will work best is that you get a tape measure ready to go and a pen to write down your measurements. If you don't have a tape measure, simply cut a piece of string long enough to measure around your hips and grab a ruler.

I have prepared a diagram where you can simply follow the steps and work out in 3 simple steps what your body shape is.

To make the information relevant for you, I have prepared tons of information on the Style Angel website, Pinterest and YouTube which you can access just by clicking on your body shape image.

Just follow the prompts below.

### **How to measure your body shape?**

We have already covered in Step 1 that all bodies have their fleshy bits and I want you to know that there simply is NO GOOD OR BAD body shape.

Each shape has amazing style options and I am going to show you how you can work your body shape to YOUR best advantage with simple steps. And I mean AT ANY WEIGHT!

From size 6 to 26+!

# style angel

## WILL YOUR BODY SHAPE CHANGE?

It is possible that your body shape changes as you go through child birth, weight fluctuations and menopause.

In my experience the women who are the closest to another body shape naturally are the ones most likely to change body shape as they get older.

I will give you an example here:

Style Angel Client Mary's body shape measurements are

BUST: 93      WAIST: 85      HIPS: 100.5

Mary's Bust is only just 7.5cm smaller than her hips which just gets her in the PEAR shape body shape category. It will depend on Mary's changes in her body as she gets through menopause to see if her shape will remain in the PEAR shape body shape category or if she moves to RECTANGLE.

It happens regularly that I measure women who are on the cusp so I want to make you aware that you could possibly be in the same situation.

When you feel your shape has gone through changes, simply do the measurements again to confirm that you are still working your shape to the max!

## HOW DO YOU FEEL?

Excited, confused, filled with questions. All very normal!

Instead of sitting on your questions, I want to help clarify them for you.

The [Style Angel forum](#) is the perfect place to ask your questions. Either Private message me or post on the site so other ladies, learning just like you, can benefit from your questions.

## Are You Ready for More?

*If there is one thing I really want this extract to do for you, it is to open your mind that your confidence is ONLY millimeters away. Your Style and Colour Rut can be dissolved instantly by following a few simple steps that have blown away thousands of women.*

I am not kidding when I say that following the 8 simple steps I describe in detail has changed many lives.

It is my life’s passion all bundled up in one book ready for you to snap it up.

**So what can you expect to get out of my Book :**

I will help you clear out your wardrobe and share with you how I get this job done with my clients.

Be honest, how much do you love what is in your wardrobe RIGHT NOW?

**20% , 50%, 80%?**

You may have heard of the 80/20 rule.....

Statistics say that most women ONLY love and wear 20% of the clothes in their wardrobe all the time!

Let me make a small calculation for you, I think you will surprised how much money is tied up in your clothes that could have had many other purposes.

# style angel

giving you confidence in the way you look

On average you will have at least 100 items in total in your wardrobe with an average price tag of \$75 per garment.

*100 Garments x 20% = 20 items that get most of the wear*

*80 items you don't often/never wear x \$75 per item = \$6,000*

You may even have more than 80 items you never wear and perhaps a higher than \$75 average price tag. You can do the sums and change the final figure but the message is clear: aimlessly shopping could possibly cost you a lot of money.

**TIME TO SHOP IN YOUR WARDROBE!! AND I WILL SHOW YOU HOW IN MY BOOK!**

I am bursting with excitement to show you how you can look TALLER and SLIMMER! They are such simple tips and have absolutely nothing to do with fashion fads!

You can implement these tips by reading the words, looking at the videos and pictures! These tips will make a difference in your life! How you dress, how confident you feel and how many compliments you get!

You will have 8 ways easy-to-follow steps on how you can look taller and slimmer by using your tops, cardigans, jackets, pants and skirts. Yes that is right, I will show you how to wear them and look slimmer instantly!

We will talk Colour, Patterns and How you can use black as an instant “weight loss program”.

AND TO TOP IT OFF You will have access to Bonus downloads that will help you in your journey of looking the BEST for your shape!

## About Style Angel

I have the BEST job in the world! On a daily basis I get to help women like YOU look taller and slimmer and to feel **CONFIDENT** in how you look!

From a very young age my body had transformed so rapidly and I had female curves and the hormones to go with them in Primary school leaving it ripe for school yard teasing about my huge boobs (Totally ridiculous as I ended up with a size B cup)! My body shape had transformed into a “big bottom” now I know is Pear when I went to high school so my fascination started with how we can all look so different.

Styling is in my DNA! I was born in Amsterdam into a beautiful family and I was an only child to my Dad Bert and Mum Willy. My Dad was a shoe buyer for a multi-national European Retailer and he travelled regularly to Spain and Italy. I got to see the latest collections before they even went into the stores.

My Dad taught me about line and design from a very young age as well as what shoes worked really well and which did not. Retail is in my blood!

My Mum is the most stylish woman on the planet and her effortless way of staying true to her style and look AS WELL AS her passion for finding the outfit that is the BEST still to this day makes my styling sessions such a success. My Mum would never settle for less, she would not care about what size an item was and her level of comfort with her body was so inspiring! My Mum simply rocks!

My Dad encouraged me to find my passion and my journey led into the world of Hotels and Restaurants. I completed one of the world’s best Hotelschools in The Hague and that experience, including working for HYATT in London and

# style angel

giving you confidence in the way you look

becoming fluent in French working in France, taught me so much about 5 star service and the joy of exceeding Client expectations and making their experience amazing.

The traveller in me was drawn to Australia and it was in the gorgeous city Sydney, I followed my passion and started Style Angel in 2000 as I had so many requests from people who wanted me to shop with them, pick out what worked and make their wardrobe super easy to wear.

I can relate to a busy (sometimes crazy) life, I am a Wife and a Mum of 2 kids under 10, and a Stepmum of 3 Adult kids including a grandchild, I know about weight gain and weight loss, I know about changes to the body and the effects of menopause. I have lived a full life and I have learnt great lessons along the way. I have learnt how to be confident in myself and in my body and I love my wardrobe that supports me in my daily journey!

That inspired me to reach out to you and many women all over the world and to put my Style Angel expertise of how you can look taller and slimmer into words, pictures and videos so you can grow just as much in your confidence!

Happy Wife is a HAPPY LIFE as my husband says, and he is right. You owe it to yourself to be happy, healthy and confident! Life is too short to be worried about your arms, tummy, thighs or bottom. These are all areas that with the all the tips in this book you can nail 100%.

## *Client Reviews*

**Kerry purchased a Style session.**

“Just wanted to say how much I enjoyed our last couple of styling sessions.

To be able to purchase with confidence both clothes and now shoes and accessories makes shopping a treat, as well as a breeze.

You truly are a one-stop shop and ‘go to’ girl. You have made me feel more confident in my dress and style, you bring with you your beautiful self with so much enthusiasm, love and generosity of spirit. Thank you seems inadequate.”

**Barbara booked in for a 3 hour Personal Shopping Experience and a Colour Session Portfolio.**

“With my wardrobe I always felt like there were some gems in there but lost among a whole lot of clothes that do not fit or do not suit or were on sale and still have tags on. I was really looking forward to getting some direction about what to shop for, colours that suited me and to put an end to me buying items that look great on the hanger but unflattering on me.

The whole shopping experience was fantastic, I could see the difference that wearing the right colours for my fair skin tone (Barbara is most suited to Warm and Autumn colours) was making to my overall appearance.

# style angel

We also found a pair of Mavi jeans that made me lose 2 kilos instantly! I went home with 4 dresses, sandals, jeans, a work blouse and trousers, tank tops and some great accessories, all without breaking the bank.

People comment every time I wear an item we bought together. Could not be happier!"

## **Philippa booked in for a 2 hour Personal Shopping Experience.**

"I really enjoyed the shopping experience with you - it was great to learn about colours in particular and I have been enjoying my purchases.

I think the session built confidence in my ability to determine what clothes suit me well. The black dress is something I am really looking forward to wearing when it gets a little warmer."

## **Joanne booked in for a Personal Shopping Experience.**

"I had an amazing experience with Angela, she was instantly likeable and I felt that she would be honest and I could trust her to transform my wardrobe.

We were so quick in and out of every shop as she just picked whatever was my right colour and shape, and while I tried them on while she searched for accessories or shoes, it was so productive! I think I bought almost everything she recommended, it was the best 2 hour shop I've ever done.

I now have a new set of colours in my wardrobe, quite a few I had never worn before. I think I always went for my favorite colours which now I realise didn't actually suit me.

I also feel thinner and more stylish in my new clothes. I would definitely consider doing this again when it's summer to revamp that part of my wardrobe."

giving you confidence in the way you look

**Collette from Drummoyne booked in for a 3 Hour Personal Shopping Experience and a 3 hour Wardrobe Organisation.**

“After 3 years wearing Maternity or "Breastfeeding-kind" clothes having had two kids, I was completely fed up with my frumpy wardrobe and after long sleepless nights and beginning to not take care of my appearance - sad but true! - I wanted to feel more feminine again.

Angela was inspirational she took a quick look through my wardrobe told me what "gaps" needed filling and listened to my needs.

Then we went off on a shopping trip to Chatswood that left me feeling like Julia Roberts in Pretty Woman with all my shopping bags!!

With just a few core items for my wardrobe and some great fashion accessories plus other bits and pieces Angela transformed my wardrobe. EVERY item Angela picked for me even if I was a little hesitant once I tried it on it made perfect sense and looked great!

Later that day I put on one of the outfits that Angela had picked out for me and I received numerous compliments from my Partner and friends that we met that evening. It gave me such a confidence boost!

I was so inspired by Angela's choices that I had Angela come back a week later for a wardrobe makeover, which was great she helped me clear out a lot of stuff, but better again she showed me how to mix and match items that I would never have put together in my wardrobe and would have probably thrown out or never worn again.

My wardrobe is now still functioning as it did when Angela re-modeled it (you'll be glad to hear Angela!), it has taken the stress out of finding items to wear and match and the layout is just great.
